

Dirty5

Dirty5's recipe is as simple as stunning. Five great musicians, a bunch of good songs and a lot of passion. Add some toppings to it like an excellent choice in covers and an musical knowledge and you know that you're in for a treat. The band takes you out on a musical journey throughout the world of soul, jazz, funk and blues on which you'll look back to with fond memories. Dirty5 is not your typical cover band nor is it a mechanical jukebox playing your common blues hits. Indulge yourself into their world of music and take a good listen to their live album including renditions of local heroes, young blues artists and classic performers. In the near future you'll be treated on some of their self-penned tunes. From that moment on you'll understand that blues is not only a genre, but it's above all a way of living.
